

## VACANCY

### **GENERAL MANAGER: - EXPLORATION & PRODUCTION OIL COMPANY**

Our client is an active operator in the upstream sector of Nigerian Oil and Gas based in Lagos, with field operations in the Niger Delta. Our client plans to increase production level by 8,000BOPD in the immediate future and needs a strong goal-getter candidate for the position of **GENERAL MANAGER**, reporting directly to the Managing Director. Following are necessary attributes of a good candidate:

- A strong first degree in any of the following areas of Engineering – Mechanical, Chemical and Petroleum, obtained from a recognized University. A higher degree in the above disciplines will be major advantage.
- At least 15 - 20 years of experience in a major exploration and producing company, with proven general abilities in all aspects of the business with deep knowledge in at least 3 of Drilling, Production engineering, Facilities engineering, Reservoir engineering and Production operations.
- Evidence of good knowledge and experience in industry Environmental, Health and Safety issues, including good knowledge of regulatory affairs.

The successful candidate will run the producing portfolio with production operations and engineering managers reporting to him or her.

Interested candidates with the above credentials should submit a detailed personal application in a CV to be submitted to [chrismatsonlos@gmail.com](mailto:chrismatsonlos@gmail.com), within two weeks from the date of this publication.

- **CANDIDATES THAT ARE RETIRED OR ABOUT TO RETIRE FROM REGULAR EMPLOYMENT ARE ALSO ENCOURAGED TO APPLY.**

**Please note that only shortlisted candidates will be contacted.**
