

# CHEVRON NIGERIA LIMITED

R. C. 6135

Operator of the NNPC\Chevron Joint Venture

## CAREER OPPORTUNITIES

Chevron Nigeria Limited is one of the world's leading integrated energy companies, with subsidiaries that conduct business worldwide including Nigeria.

Chevron Nigeria Limited hereby invites applications from qualified candidates for employment. These positions can be located in Lagos, Escravos, Deepwater, offshore or swamp rigs. The Company also provides career opportunities to its workforce in other Chevron's worldwide operations.

Chevron is committed to sound environmental & safety practices and exhibits cultural diversity. Our employees conduct their day-to-day work with the principles outlined in the Chevron Way which expresses our wish "to be the global energy company most admired for its people, partnership and performance".

If you are interested in becoming a valued employee of Chevron Nigeria Limited, a company that provides excellent career opportunities and welfare package, this opportunity awaits you. Will you join us?

### **WORKOVER INTERVENTION ENGINEER (W050)**

This position will be responsible for the following;

- All engineering aspects in support of safe and efficient execution of non-rig type workover and well interventions operations offshore Nigeria.
- It will also provide all engineering operations support for a HWOU (Hydraulic Workover Unit).
- The roles of the workover/intervention team will include all well work within the pressure envelope, as well as rig-site preparation.

The position will support in directing contract personnel, managing warehouse and logistics that support the operations.

**Special Consideration:** Operations will be supported from Chevron Nigeria's Escravos facilities and shorebase near the mouth of the Escravos River. Security is well established at the Escravos shorebase. There is significant additional activity ongoing near Escravos with the nearing completion of the Escravos Gas to Liquids plant.

The position will be primarily based in the Escravos Terminal in Nigeria but may be required to be in Lagos office, Deepwater, offshore or swamp rigs according to business needs.

**Qualification:** Bachelor's degree in Engineering with a minimum of Second Class Lower Division.

**Experience:** Minimum of 15 years relevant post-degree work experience (includes National Youth Service) in Workover & Completion Engineering and Operations.

### **DRILL SITE MANAGER - DEEPWATER (D030)**

This position will be responsible for the following:

- Ensure the safety of all personnel.
- Supervise the execution of drilling program.
- Supervise the work direction of service partners on well location.
- Sign field invoices for service partner goods and services.
- Supervise and mentor less experienced personnel.
- Assist in incident investigations.
- Assist in after action reviews.
- Assist in formulation of Plan of Action.
- Represent Chevron Nigeria in all phases of the well execution.
- Other duties as required.

This position can be located in Lagos office, Deepwater, offshore or swamp rigs.

### **Additional Requirements:**

- Strong knowledge of Deepwater drilling and completion operations.
- Demonstrable leadership abilities, including but not limited to effective communications, interpersonal and organization skills.
- Ability to coordinate and provide clear direction to a multitude of diverse service partners.
- Demonstrable ability to analyze and solve complex well drilling and completion problems.

**Qualification:** Bachelor's degree or Higher National Diploma in Engineering or Sciences with minimum of Second Class Lower Division.

**Experience:** Minimum of 15 years relevant post-degree work experience (includes National Youth Service), including 5 years of Deepwater experience, in any combinations of the following areas: Driller, Toolpusher, or Drilling Supervisor for a drilling contractor.

**Remuneration and Condition of Service:** The salaries attached to these positions and the general conditions of service including medical benefits are very attractive and fall within the range obtainable in the Oil and Gas Industry.

**Method of Application:** Interested candidate should apply online through <https://www.careers.chevron.com> and click these icons:-

- Find a job
- Nigeria
- View and apply for a job
